Relations With Mexico

The complete calm and lack of disturbance with which Manuel Avila Camacho was inaugurated as Mexico's new president may prove to be a happy augury for his six-year term. The United States whose chief interest lies in a Mexico steadily progressing under stable institutions, hopes it may be so.

The rude and unpleasant demonstration staged for Secretary Wallace on his arrival to attend the inauguration need not be taken too seriously. The sheer, fruitless but taste of the affair pretty well identifies it with one of those political minorities whose sole influence lies in such demonstrations. There is no reason to doubt that Wallace's warm reception later by the Chamber of Deputies is much more representative of a growing cordiality toward the United States, which the Avila Camacho regime is pledged to foster.

The United States has been most patient and sympathetic toward Mexico in the past few years. That is partly due to a genuinely increasing good-will and understanding, and partly due, frankly, to the knowledge that Mexican good-will is more important to the United States today than it has been for a long time.

Our two countries need each other. Each will benefit by cultivating the

other's good-will in the only effective way—by deserving it.

Avila Camacho takes the reins of Mexico at a difficult time. He succeeds a man, Lazaro Cardenas, who is generally conceded to have been a great president. Even those who disagree with his policies do not minimize his sheer stature. To be successor to such a man is always difficult.

Avila Camacho's own following is by no means united. He must restore the confidence of business, both foreign and domestic, while guarding the gains made by labor under Cardenas; again not an easy task. He must revivify an economy badly shattered by domestic convulsions and shutting off of foreign trade. He must defend his country against foreign influences which have not hesitated to intrigue with his political opponents. He must settle the long-festering "oil controversy."

In short, he faces a whale of a big job.

In tackling that job, he has the good will of the administration at Washington and of the American people, who are year by year achieving a greater liking for their neighbors across the Rio Grande.

In his expressed plan to make Mexico a more vital link in the "hemisphere system" on which 21 American republics increasingly pin their faith, the people of the United States wish him success and prosperity.

No Cotton Picker

At times sensational announcements appear that a perfect mechanical cotton picker has been constructed and that the economy of the southern cotton states will consequently undergo a revolutionary change.

These scares are mostly false alarms, according to Fowler McCormick, an executive of the International Harvester company.

McCormick says that his company has been experimenting with mechanical cotton pickers for 30 years, but no satisfactory machine for that purpose has yet been designed. The company has never offered their experimental machines for sale, knowing they would be disappointed in the end.

Even if a perfect picker were designed, McCormick says it will take many years to educate the southern people to its general adoption. Most cotton will be hand picked this year and next for a long time to come.

The Loan To China

It was announced by the President early this week that the government is planning to lend China another \$50

million dollars for purchases of needed supplies, and another \$50 million for the "support of Chinese currency."

At the same time, Jesse Jones, head of the RFC, allows himself to be quoted to the effect that China is up to schedule in her deliveries of materials for the repayment of the loan she obtained two years ago. In this matter, China is classed with Finland in being able to meet her installments when due, in spite of the terrible strain she is undergoing during the Japanese invasion.

The new loan is acknowledged to be meant for the purpose of bolstering China in her continued resistance against the aggression of the Japanese. While China keeps the Japs so busy with their campaign in China that they can't start new aggressions in other parts of the world, she is living up to the hopes which Americans indulge in her behalf.

UNDER PEACE BOND

William E. Decker was placed under bond of \$200 to keep the peace for one year following a hearing Friday in the court of Justice A. B. Opperman. The complaint was brought by Decker's wife, alleging that Decker has threatened her life. State's Attorney Oscar Zachary handled the case for the people, and the defense was represented by Carl E. Robinson and Robert C. Gasen.

AROUND THE SQUARE

Forgotten Occupations

In the Jacksonville Directories of the '70s, '80s, '90s there are listed numbers of carriage and wagon manufacturers, harness makers, livery stables, blacksmiths, and carriage painters and trimmers. Beautiful and spirited horses were common sights on the streets of Jacksonville, for the pioneers who came here from Kentucky and Tennessee, brought with them the finest strains of horses from the regions famous even in those days for fine horses. Only the best of equipment was suitable for such animals and Jacksonville supplied that equipment. Today, these business firms have not only ceased to exist—they have passed into history through disuse.

Parking Space

Today adequate parking space harasses every city, be it large or small, for automobiles occupy space. In other days "hitching places" sometimes caused heated disputes. At one time a high-board fence surrounded the square and farmers and others hitched their horses there. In time, the fence was removed, and loud angry protests resulted, convenience sacrificed to beauty brought forth bitter criticisms.

Cheery Reminders of the Past

Hitching posts were of many kinds—some strictly utilitarian, some ornamental. The Hammond Foundry here, supplied a number of iron posts with ornamental heads of various designs, later concrete posts displaced these and of either there are almost none left standing.

The figures in the illustration above probably represent the most appealing

Army's Phantom Recon. Car Is Not Stick in the Mud

Over the hill and through the mud—this new War Department phantom auto keeps going on nearly any type of terrain. The low slung car, pictured during test trials at Baltimore, carries three men, has four-wheel drive, and can travel up to 60 miles an hour over extremely rough ground. The army plans a fleet of these machines to take over reconnaissance missions generally assigned to sidecar motorcycles.

Illinois School For Deaf Awarded Regional Tournament

Notre Dame Defeats Southern California In Wild Tilt, 10 To 6

Los Angeles, Dec. 7.—(P)—Southern California's Trojans changed their hospital night shirts for football suits today and gave Notre Dame a walloping battle for 60 minutes, but the big green team from South Bend walked off the field with a 10-6 triumph after another wild chapter had been added to the history of this 15-year-old intersectional rivalry.

Southern California's fugitives from an influenza ward brought the roaring throng of 80,000 to its feet in the last minute of the game with an overhead attack that swept from deep in its own territory to the very goal line of the Irish as the gun sounded, but a final pass just missed its receiver and the game was over.

The Irish had been favored to win today, thus ending a two-year reign over its proud green by the lads of Troy.

The Trojans made one miscue in the first quarter. A quick kick went mad and the Fighting Irish struck back. Steve Juzwik, Notre Dame's right half, started it with a 19 yard run, and soon the South Benders were within hailing distance of a score.

S. C. stopped the running game, however, and Milt Piepul dropped back and kicked a field goal from the 25-yard stripe.

The Trojans, 15 of whom were in the hospital at one time or another with the "flu" this week, crashed back with amazing suddenness. Bobby Robertson took the Irish kickoff, ran it back 35 yards, and then Jack Banta barged over right tackle for 10 more.

On the next play Fullback Bobby Peoples sliced through the Irish line, jerked and shook himself loose from the Irish secondary, and bowling over the Notre Dame safety man on his wild stampede down field, traveled

46 yards for a touchdown.

Late in the period the fired-up Trojans got loose again. Robertson yanked loose for a 45 yard sprint, and was headed for a touchdown when Juzwik nailed him from behind. The Trojans went on to the Irish five, the Irish pushed them back, and on a field goal attempt, there was a bobble and Notre Dame recovered.

Bundy and Evans
As the second period began, blocking back Bill Bundy, most recent of the sickness squad, went out of the S. C. lineup, and Fred Evans came into the Notre Dame backfield.

Evans sailed a perfect pass for 35 yards to Ray Ehl, reserve end, and the Irish were set for a touchdown thrust. Another pass for 14 yards, and the line hammering of Juzwik and Piepul took the ball to the three. Then Piepul cracked over for a score. He added the extra point, giving him the scoring honors of the day.

The game rocked along into the fourth period, with neither team able to generate a real threat. Twice the Trojans, backed deep, gambled on fourth down for a yard or two. Once they made it. The second time they missed, and the Irish took over on the enemy 25. Two plays later they fumbled, S. C. recovered and there was less than 15 seconds to play.

Substitute Bob Berryman threw a long pass. Officials called an interference penalty on the Irish on their own 32. Seven seconds remained. The crowd was thundering. Berryman faded back, passed again, headed for E. Davis, his end, but the Notre Dame aerial defense worked this time, and it fell incomplete just inside the end zone as the final gun sounded.

The Trojans had the edge in downs and yardage but not in reserve power.

S.M.U. Nips Rice, 7-6 To Gain A Tie For Championship

Rice Termed Better Team, But Passing Offense Good for Marker

Houston, Tex., Dec. 7.—(P)—A guy named Joe kicked Southern Methodist University into a tie with the Texas Aggies for the Southwest Conference championship today and ruined the last chapter of Rice's football season. Rice was leading 6-0, after rolling far downfield in five great surges, when the Methodists scored in the fourth period.

Then Joe Pasqua, big tackle, came into the game and sailed the ball above the crossbars to give SMU a 7-6 victory.

Southern Methodist, however, relinquished all claims to consideration as a candidate to represent the conference in the Cotton Bowl, thus assuring that the Aggies would oppose Fordham New Year's Day.

Rice Better Team
Except for the one offensive burst by SMU, Rice was far the better team today, rolling up 190 yards on the ground as it drove goalward five times. The Mustangs' net running yardage was 27 yards. But Rice wound up in a deadlock with Texas University for third and fourth places in the conference scrap.

Southern Methodist's winning touchdown came on a great passing exhibition which began on its own 15. Ray Malouf, quarterback, pitched five passes to carry the Methodists practically the entire 85 yards to the Rice goal-line. The first three, one to Red McClain and two to Bill Mullenweg, backs, gained 55 yards to the Rice 30. Then Malouf found Mullenweg with another heave on the 9. McClain gained four yards on a reverse and Malouf shot the touchdown pass to E. L. Keton, end.

Rice scored in the second. Halfback Dick Dwell intercepted a pass on his 5 and raced to the Owl 26. Then he sailed a shaft to Bob Brunley, Rice's powerhouse fullback, on the 44.

The touchdown came on the next play with Dwell fading far back and tossing a long pass to little Barron Ellis, halfback, who raced across standing up.

Brunley had no chance to attempt the extra point because of a poor pass from center.

Fischer Hits High At R. and R. Alleys

Joe Fischer took the high honors of the week at the R. and R. bowling alleys with a 632 series, including a 234 game, but Kel Solomon, who has been the hottest bowler for the past couple weeks, gave him competition with a 609 series and a high game of 237.

Herman Calvin and George Kemp had better than 600 series during the week. Kemp hitting a 606 count and Calvin a 601 series. Lee Peters also cracked the 600 mark with a 603 series Tuesday night. Frank Rowland cracked a 243 game and the White Front team rolled three games of over 600 to come near the 2800 team mark.

Beurp's D-X team is leading the Monday Night League in which Lee Peters has the top average of 184 and Louie Due is second with 161. Sears Roebuck is back in front in the Wednesday Night league in which Rex Henry has the high average at 167, and Harry Kitzer is second with 165.

Wright Lumber Company is leading the Friday Night League by two games. Clarence Watts has the high average, 185, and Fischer is second with 163. In the A.C.W.A. loop, Team No. 6 is leading and Walt Ballard has the high average, 175, and Toddy McDaniel is second with 157.

Florida Crushed By U. of Texas, 26 to 0

Gainesville, Fla., Dec. 7.—(P)—The University of Texas Longhorns, using their first team sparingly, crushed one of the best Florida football teams in years 26 to 0 here today before 12,000 fans.

Hard-hitting Pete Layden was perhaps the outstanding player on the field but there were so many stars there was no keeping track of them. Layden personally scored two touchdowns, and passed the ball in another play on which Cowboy Jack Crain scored a third tally. The fourth Texas score was made by Reserve End Jack Searle on a 33-yard pass from Halfback Walter Heap, a substitute.

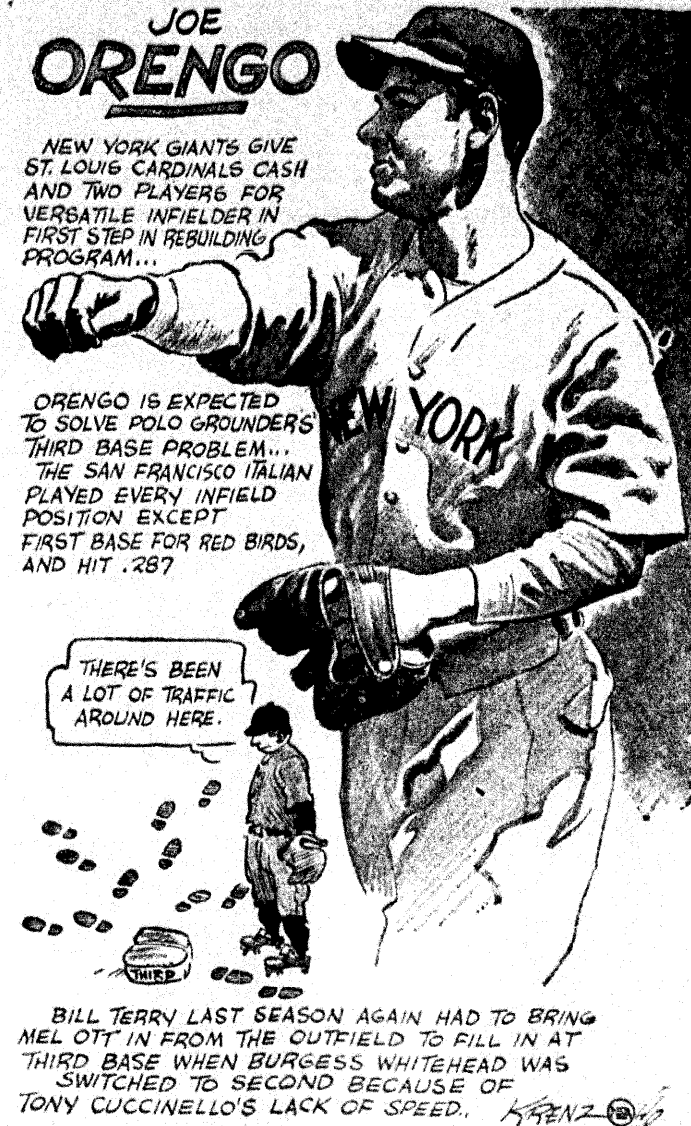

Crain kicked extra points after the first and third touchdowns.

It was the final game of the season for both Texas, and was Florida's fifth defeat of the year against five victories. Texas lost only two.

MICHIGAN
Ann Arbor, Mich., Dec. 7.—(P)—Michigan opened its basketball season in convincing manner tonight, whipping Michigan State, 42 to 14, for the most decisive defeat suffered by the Spartans in the long series with the Wolverines.

The Wolverines, setting up a defense which allowed Michigan State only one field goal in the last 29 minutes, distributed their own scoring well, with midjet Mike Sofiak, veteran forward, leading a heavy early attack.

Henry's Long Shot Gives Rout 21-20 Win Over Maroons

Hold Lead Only Three Times During Game; Height Fails To Stop Rockets

Jim Henry's long shot in the last seconds of play gave Routt high's Rockets a thrilling 21 to 20 victory over White Hall's tall Maroons on the Our Saviour's parish court Saturday night. Henry snatched back a lead Routt had lost a few seconds before when Gilmore dropped in a shot after Maloney had given Routt the lead for the second time in the game with only a minute and a half to play.

Routt's seconds also took the curtain raiser from the White Hall reserves by a 25 to 14 score.

Kel Solomon's 626 series, including a 223 game in the Friday Night League, topped the efforts of the bowlers at the Jacksonville Alleys during the past week. Bob Hamm had a 215 game and Walt Ballard and Parke Bowman each got games of 214 during the week.

Widney Service Stations set the team mark of the week on Thursday night with a 2738 effort. The Exchange Club again topped the Monday night loop with a 2602 series. Parke Bowman's 593 series on Tuesday night was the second best of the week, and Kenneth Olson and Wallace Baptist tied for third with 553 series.

Lawrence Graham's Inc. continued to make the Monday Night Women's League a one way affair, running their victories to 13 against three losses. The Alkire Insurance team had the high series, 1275, and Miss Callender the best series, 356, and best game, 187, in the circuit.

Sign Ray Blades To Pilot The Pelicans

New Orleans, Dec. 7.—(P)—Charles Hurth, business manager of the New Orleans Pelicans, announced today that Ray Blades, former St. Louis Cardinals' manager, would pilot the Pelicans next season.

Blades, 43, started his baseball career with Memphis in 1920. He joined the Cards in 1922 and, except for 1929 which he spent with the Houston Texas League club, and Rochester of the International, was in their lineup until 1933 when he went to Columbus as manager.

He piloted Columbus to its first American Association pennant in 26 years and two successive Little World Series championships, then became manager at Rochester in 1936.

In 1939 he took charge of the Cardinals and brought the team in second. Last season the club got away to a poor start, and Blades was relieved by Billy Southworth.

Texas Aggies Are Named Host Team In The Cotton Bowl

Will Play Fordham Eleven New Year's Day At Dallas Stadium

Waco, Texas, Dec. 7.—(P)—Once-beaten Texas A. & M. co-champion of the Southwest conference, was named host team tonight for the Cotton Bowl, post-season game at Dallas against Fordham university on New Year's Day.

Dr. Henry Trantham of Baylor university, president of the Southwest conference, said that A. & M. had accepted the invitation extended by the conference.

Southern Methodist university won a share of the title today by defeating Rice Institute, 7-6, but had informed Dr. Trantham before the game that in the event it defeated Rice it would waive its claim on the Cotton Bowl classic in favor of the Aggies. The Aggies defeated SMU, 19-7, five weeks ago.

"Grand Gesture"
The action of Southern Methodist in waiving its claim to a right in the Cotton Bowl game was a grand gesture," said Dr. Trantham.

"Two days ago Southern Methodist advised me that they would follow such a course if they defeated Rice Institute."

Both the teams with a chance to tie the Aggies for the conference title, Southern Methodist and Rice, had been defeated decisively by the Aggies during the season. Rice fell 28-0. Dr. Trantham added that an official poll of the Southwest conference was taken tonight to determine the host team for the game but "that was unnecessary due to the action of Southern Methodist university."

The Aggies, bowing over all opposition until they met their traditional enemy, University of Texas, came closest any team has ever come to winning the undisputed conference title two years in a row.

That victory gave Rice and SMU their mathematical chance for a tie in final standings.

Bowl Financing
Each team in this year's Cotton Bowl will receive 42 1/2 per cent of the gross receipts. The additional 15 per cent will go to the stadium rental.

By far the heaviest advance sale of tickets in the history of the game was reported by Dan D. Rogers, of Dallas, president of the Cotton Bowl Association. A sell out several days before the clash was predicted.

Rogers said Texas A. & M. College had asked for 14,000 tickets for ex-students and an additional 5,000 for the cadet corps. The stadium seats about 46,000.

Both Fordham and the Aggies were expected to get down to work next week, the Aggies cheered by news that Quarterback Marion Pugh, who missed the Texas game because of a leg hurt, was ready to go again.

Big Ten Votes To Refuse Permission For Bowl Contests

Emphatic In Pointing Out It Applies To Charity Games, Also

Chicago, Dec. 7.—(P)—The Western Conference threw a solid "block" today against any football games after its regular season—of Rose Bowl or any other variety.

By unanimous vote, faculty representatives of the circuit agreed to adhere to the present rule prohibiting post season games. And they were emphatic in pointing out this applies to both Rose Bowl and charity games.

There was only brief discussion before a decision on the proposal for the Western Conference to join with the Pacific Coast conference in making the annual Rose Bowl game a closed affair between the two collegiate organizations. Ten faculty representatives attended the meeting, but the representative of Chicago, which abolished football a year ago, did not ballot.

Bowl Speculation

There was some speculation on the possibility of the Rose Bowl question bobbing up again in the future. Minnesota, Wisconsin, Illinois, Northwestern and Purdue have been opposed to the plan but there had been some support for the idea at other conference schools. Prof. F. E. Richart of Illinois, committee secretary, indicated that the realization that the plan could not win approval had prompted opponents to make the deciding ballot a unanimous one.

The committee ruled that John Petty, star Purdue fullback, Pete Timperman, Purdue lineman, and Helge Pakema, star Minnesota guard, would be eligible for another year of competition. All appeared in one game in their sophomore year, but the representatives relaxed their regulations because they had been forced out of action by injury or illness.

Dr. Karl Leib of Iowa was elected committee chairman, succeeding Prof. W. J. Moenkhaus of Indiana, and Prof. Henry Rottschaefer of Minnesota was named delegate to the National Collegiate Athletic Association meeting at New York Dec. 30-31.

Track Meet Events

Conference athletic directors, on recommendation of the track coaches, added two events to the program of the indoor conference track meet—the 70 yard low hurdles and the broad jump.

The questions of selection and assignment of the Big Nine football officials was referred to Maj. John L. Griffith, conference commissioner. There had been reports of a movement to have these officials work in sets of four—the same four men to work every game. Maj. Griffith was given authority to make any assignments he wished.

Chicago was awarded the conference fencing championships March 15 and also will play host to the tennis championships May 29-31. The gymnastics meet will be held March 15 at Iowa, with Ohio State host to conference wrestlers March 7-8.

The conference cross country meet will be held Nov. 17 at Purdue.

Jacksonville High Noses Out Shadows By 20 to 17 Score

Neither Team Able To Make Much Progress Through Tight Defenses

Jacksonville high's tall Crimsonos notched their second basketball victory in as many starts this season with 20 to 17 victory over the Murrayville high Shadows Saturday night on the David Prince boards, but neither team was able to make much progress through the defenses their opponents set up.

In fact, the game was won from the free throw line, where the Crimsonos pitched in 10 out of 15 chances while Murrayville was able to get but 3 out of 13 to run down the threads. Murrayville outscored the Crimsonos 7 to 5 from the field.

It was nip and tuck all the way, with neither team making much headway in the scoring. Murrayville led by a single point 6-3, at the end of the first quarter, but the Crimsonos had edged in front 11 to 9 at the half. The score stuck at 13 all for several minutes in the third period before the Crimsonos got a free toss down to make it 14-13 at the end of the quarter.

Once during the fourth period the Crimsonos got out in front five points, but in the last minute of play Murrayville cut it to three points, and had two other shots bounce off the rim.

In the curtain raiser, the Murrayville seconds won from the J.H.S. freshman-sophomore team 21 to 17.

Sen. Holt Attacks War-Minded Group

Washington, Dec. 7.—(P)—Senator Holt (D-W.Va.) declared today that of 130,000,000 persons in the United States "we have less than 130 men who are responsible for getting America into this war."

"If these individuals were removed from their places of influence we would be building for peace instead of war," he said in a statement.

"The administration has put pressure on Congress to stop investigation of those foreign forces which desire to plunge us into blood-drenched Europe. They dare not face the facts but they can not escape the punishment that is the lot of any who are responsible for the deaths of others."

Talented Cast Has Been Selected For Ibsen Play Dec. 19

Hilltop Players Rehearse For "A Doll's House," Second of Series

Announcement was made recently of the cast for "A Doll's House," by Henrik Ibsen, to be presented December 19 by the Illinois College Hilltop Players. The play, second of a series of five major productions planned for this season by the college group, will be presented in the high school auditorium.

Heading the cast is Miss Peggy Steinhoff, Chicago sophomore, who goes the role of Nora Helmer. Miss Steinhoff will be remembered by Jacksonville audiences for her successful portrayal of Emily in Wilder's "Our Town" last fall. In playing the part of Nora she realized early in her career an ambition of actresses the world over.

Playing opposite Miss Steinhoff is another sophomore, Rufus Smith, of Springfield, Smith, as the smug Torvald Helmer, plays a role very unlike that of Uncle Sid, which he portrayed in the Players' first production this fall, "Ah, Wilderness." He is the son of Mr. and Mrs. Minor L. Smith of Springfield. Mr. Minor Smith is well known in Jacksonville because of his connection with high school and college yearbook work.

Miss Barbara Leeper of Virginia, another second year student, has been assigned the part of Mrs. Lind. Miss Leeper also did an outstanding character job in "Ah, Wilderness." Cast as Dr. Rank, friend of the Helmer family, is David Watson of Pittsfield. Playing in numerous roles in Hilltop Players' productions, Watson is perhaps best remembered for his characterization of Luciente in Shakespeare's "The Taming of the Shrew."

Only newcomer to be used in this cast is Miss Joan Gilchrist, Jacksonville freshman. She is the daughter of Mr. and Mrs. L. K. Gilchrist. Having had considerable experience in local high school speech work, she comes to the Players already a veteran of many productions.

The play is directed by Ned Donahoe. Scenery is designed by Mrs. Leone Sperry Cole, formerly of the Civic Repertory Theatre of Chicago. Dick Husted is in charge of ticket promotion.

• SERIAL STORY

DUDE COLLEGE

BY OREN ARNOLD

COPYRIGHT, 1940.
NEA SERVICE, INC.

YESTERDAY, half terrified, Ronnie and Wes entered the cave, lighting their way with a torch. They discovered a large room a short distance from the entrance. Food and clothing are stored in boxes. In a large box they discovered rifles, automatics and ammunition.

MORE SECRETS DISCOVERED

CHAPTER XVIII
"WHAT on earth would Lona Montoya hide such things for?" Ronnie Bailey was murmuring as if to herself, rather than to Wesley. "Especially away out here in a wilderness canyon."

"Hold your torch to the flame," Wes directed. "Mine is burning low. And I'm not sure she did it."

"Then who did?"
"Don't ask me, tell me. But I do know this, Ronnie—this find is significant some way."

She didn't answer. She was very busy maneuvering her light now. It cast dancing black devils on the cave ceiling and walls, and the smoke was beginning to choke her slightly, too. They spoke in hushed tones.

"Wesley, let's hurry!"
"All right. But—"

"I'm not afraid, but I think the smoke might leave telltale signs of our being here."

From his knees before a box he suddenly looked up admiringly at her. "You'd make a good outdoorsman, Ronnie. You think of practical things. But there's a ventilating draft. Cracks in the rocks back here afford wind outlets. I tested that as we came in."

"Can we look in the biggest box now? It's like a trunk, really."

He opened this largest box with heightened interest because of the guns and ammunition already found. Would this be explosives? Dynamite and caps, maybe, such as miners use? But no, this cache could hardly be for use by prospectors.

"It's a radio set!" Wesley said, studying it carefully. "Transmitter and receiver both!"

"Goodness, Wes!"
"Rather powerful set, too. I

think I don't know too much about them but this equipment looks elaborate to me."

"It is elaborate. I have a set in my plane, remember. I know."

"I think we'd better get out of here, Ronnie!"

They looked quickly behind the stack of boxes. Several pairs of men's shoes were there. Also neat rolls of blankets and several two-quart canteens. A push at the canteens showed them full, doubtless of water.

"You lead out slowly, Ronnie, and I'll pick up any charred grass or other sign we may have left. Tracks won't show on the rock floor."

"What about tracks outside?"
"We can do what Lona's boy friend did—drag a leafless brush behind us. Especially behind the horses. It's almost impossible to see our own track because we have walked on rocks most of the way. The horses' tracks are on the flat sandy floor of the canyon where the wind whips all night. Wind erases tracks and such. But we'll take care."

Still speaking in undertones as if they might be overheard, they debated the origin of the cache. Then Wesley, near the exit, extinguished their light, catching any ash fall in his hat.

"Gee-mi-nee, Wesley!" Ronica breathed it nervously.

"Don't be afraid. Night has settled outside but in a moment our eyes will adjust again. Let me hold your arm—here is the opening."

"I'm scared silly. I expect something to yell 'Boo' any moment and if it does I'll just explode!"

"It is a very real experience," said he. "More important than we realize, probably. But have no fear."

"I'm all right. You talk like a professor even when adventuring, Wes. But I sort of like it."

He halted, turned close to her in the darkness. "I beg pardon?"

"Never mind. I was just thinking that your educated, trained mind is a solid something to cling to. You are as calm as can be, Wes!"

"Thank you." He was suddenly elated. Outspoken Ronica Bailey had paid him another compliment of a personal nature, and each such invariably stirred a yearning within him.

Four Room House Near Glasgow Is Destroyed By Fire

Home of W. H. Wisdom And Family Is Total Loss; Starts On Roof

Glasgow—Sparks from the flue on the single room started a fire which completely destroyed the four room home of W. H. Wisdom, southwest of Glasgow Saturday morning. The home was located in the bluffs, just west of the W. A. Barnett home.

The blaze on the roof was discovered by Mr. Wisdom shortly after 8 o'clock, when he was returning to the house from feeding his stock, but as no water was available and a fairly strong wind was blowing the fire was soon out of control. By the time several of the neighbors, who had noticed the heavy smoke, had arrived, the fire had practically consumed the structure.

Mr. Wisdom and his three young children, who resided in the home, carried out part of the furniture from the front part of the house, but all of the kitchen equipment, including the range, cabinet, table, dishes and other equipment, and numerous articles in the smoke house at the rear of the house, were lost.

The destroyed home was partly covered by insurance.

Hope to be back that way next summer and have many things to talk about. Expedition Base Antarctica greets Illinois College. Earle Perce."

Messages are sent from the expedition by short wave radio to the Overseas Relay Station, Menlo Park, California. The address of this station for those who wish to send messages to persons in the Antarctic is Box 382 at that address.

Search Lowlands Along The River For Missing Man

Sheriff Is Assisted By CCC Enrollees During Hunt For Edlen

A widespread search for John Edlen, 34 year old Meradosia man, who has been missing from home since Nov. 2, was carried on Saturday in the Illinois river bottoms north of Meradosia by Sheriff A. E. Williamson, deputies and 18 enrollees from Camp Jacksonville who volunteered assistance. No trace of the man was found.

Sheriff Williamson led the search through swamps, underbrush and sparsely inhabited country along the river without picking up clues. Elden's disappearance has been a mystery for more than a month. He was last seen walking along a road near a slough a short distance north of Meradosia.

The sheriff's office has investigated a number of reports that Edlen has been seen in various places, but these have proved to be unfounded.

Michigan Professor To Lecture At I. C. Wednesday Evening

"Cultural Heritage of South America" To Be Topic Of Discussion

Professor Arthur Scott Alton of the University of Michigan will present the third in the present series of Illinois College Lectures in Jones Chapel, Wednesday, December 11, at 8:15 p. m. Mr. Alton, professor of Spanish American History will continue the central theme of the series, Western Hemisphere Solidarity, as he presents his lecture on the "Cultural Heritage of South America," with its relation to the central topic.

A recognized authority on Latin America, he knows well the characteristics of the "other Americans" both from study of South America and from his studies of their race itself, its culture and traits. He has been for many years a contributor to the more important historical publications, and his "Antonia de Mendoza: First Viceroy of New Spain" has won wide acclaim among students in the field of Latin American history. In addition to his articles in the various periodicals, Professor Alton was for several years a member of the board of editors of the Hispanic American Historical Review.

In the late twenties Alton was sent to Europe by the National Social Research Council to do research work in the libraries of Spain and France. Several years later he returned to Seattle, and while there acted as visiting lecturer in the Centro de Estudios Historicos.

A native of Alameda, California, Mr. Alton received his A.B. and M.A. from the University of California. He then studied at the University of Caen, from which institution he received his Ph.D. Like many another man of his age (he was born in 1894), he received part of his early education on the battlefields of France and Belgium.

Mr. Alton has been brought to the Illinois College campus to aid in giving the students and townspeople a deeper and more complete view of the Latin American people, with an insight into their race characteristics and the inheritance which they have received from Spain. In order to more fully understand the difficulties and possibilities of Western Hemisphere Solidarity, it is necessary to realize the great differences in ancestry between most of the people of South America and the people of this country, and it is these points which Mr. Alton will bring to the college on Wednesday evening.
